

Configure access to the Decision plugin

The Decision plugin is automatically available to Hub administrators. Users need to be added to a role that provides access to Decision by a Hub administrator. This access can be given via a new role or added to an existing user role. If a role does not already exist, a new role can be created from the Settings page in Hub to grant access to the plugin:

Create role

Cancel Save Delete

Role information

Role name *

Decision

Select role type

Hub

Interact

Role description

Role with access to the Decision plugin

Add plugin

Blue Prism Decision

Add user

(test-user) Test User

1. On the Roles and permissions page, click **Create role**.
The Create role section displays.
2. Enter a role name and select **Hub**.
3. If required, enter a description.
4. Select **Blue Prism Decision** from the **Add plugin** drop-down list.
5. Select the users that will be assigned this role from the **Add user** drop-down list. The list only displays Hub users and not Interact users.
6. Click **Save** to create the role and allow access to the specified users.

 Users can be added to and removed from existing roles by selecting the required role on the Roles and permissions page and clicking **Edit**. For more information, see the [Hub administrator guide](#).
