Release Notes

Decision 5.0 – July 2023

This release note is for the 5.0 release of SS&C | Blue Prism® Decision.

> SS&C | Blue Prism Decision 5.0 is only available in Blue Prism Cloud – it is not available as an on-premises solution. Please refer to the roadmap for more information on the planned versions of the Blue Prism Hub platform and the plugins.

Known issues

A list of any prominent issues with this release is maintained in the knowledge base, click here for more information.

Removal of the dependency between Hub and its plugins

Version 5.0 brings a fundamental change to the relationship between the individual plugins and Blue Prism Hub. Although Blue Prism Hub will continue to host the plugins, changes have been made to remove or reduce the level of dependency, with the view to enable installing and upgrading of future plugins without the need to upgrade the whole of Hub 5.0 and the other plugins.

For more information, see the Blue Prism Hub release notes.

Enhancements

There have been no further changes to Blue Prism Decision in this release.

Secure development policy

Blue Prism's secure development process is a market-leading, embedded security culture, focused on delivering security excellence through four key principles:

- Education – Providing up-to-date knowledge, information, and training to the development team.
- Evaluation – Regular reviews of our products using industry standard frameworks and security tools.
- Elimination – Remove potential threats through the evaluation of standards, compliance, and performance.
- Evolution – Continued improvement of our security program, ensuring alignment with our product technologies and by reacting effectively to new and emerging threats.

Blue Prism secure development is based on OWASP ASVS, ISO 27034 and GDPR Article 25 standards and practices. For more information, see Blue Prism's comprehensive secure development process.
