

Audit Actions and Events

This topic lists the actions and events that are written to the Blue Prism audit log. The events are split into the appropriate area of Blue Prism, also reflected by the letter prefix of the event number.

The information in this document is to be used in conjunction with the Operational Audit Overview data sheet.

Login

L001	Login
L002	Logout

User

U001	User created
U002	User deleted
U003	User cloned
U004	User password reset
U005	User renamed
U006	User roles and/or permissions updated
U007	User password expiry date changed
U008	User account expiry date changed
U009	User account unlocked

Process

P001	Process created
P002	Process deleted
P003	Process cloned
P004	Process updated
P005	Process unlocked
P006	Process imported
P007	Process exported
P009	Process attributes updated
P010	Process dependencies refreshed

Business object

B001	Business object created
B002	Business object deleted
B003	Business object cloned
B004	Business object updated
B005	Business object unlocked
B006	Business object imported
B007	Business object exported
B009	Business object attributes updated
B010	Business object dependencies refreshed

System configuration

S001	Resource archive settings updated
S002	System license key updated
S003	User role configuration updated
S004	Single sign-on configuration updated
S005	Design control configuration updated
S006	Password constraint settings updated
S007	Named user ran a report
S008	MI Reporting configuration updated
S009	Unicode session logging option updated
S010	Default encryption scheme updated
S011	Resource registration mode updated
S012	Prevent resource registration setting updated
S013	Require secured resource connection setting updated
S014	Allow anonymous resources setting updated
S015	System setting updated
S016	Ssession logs exported
S017	Audit log exported
S018	Group level access rights updated
S019	Archive lock manually released
S020	Scheduler settings updated
S021	Session management enforces permissions of controlling user setting updated

Web connection settings

WS01	Default connection settings updated
WS02	Web connection setting deleted
WS03	Web connection setting added
WS04	Web connection setting updated

Package

E001	Package created
E002	Package updated
E003	Package deleted
E004	Release created from a package
E005	Release of a package imported
E006	Release imported, creating a new package
E007	Component imported

Object

O001	Object added
O002	Object deleted
O003	Object updated
O004	Object configured

Resource

R001	Attribute updated
R002	Resource added to pool
R003	Resource removed from pool
R004	Pool created
R005	Pool deleted

Calendar

C001	Calendar created
C002	Calendar deleted
C003	Calendar updated

Schedule

T001	Schedule created
T002	Schedule retired
T003	Schedule deleted
T004	Schedule updated
T005	Task added to schedule
T006	Task removed to schedule
T007	Schedule task updated
T008	Process added to a scheduled task on a named resource
T009	Process removed from a scheduled task on a named resource
T010	Schedule manually triggered
T011	Schedule instance disabled
T012	Schedule retired

Work queues

Q001	Queue created
Q002	Queue updated
Q003	Queue deleted
Q004	Item in queue manually marked as an exception
Q005	Item manually unlocked from a queue
Q006	Processed items deleted from a queue
Q007	Data exported from a queue
Q008	Forced retry of items in a queue
Q009	Queue imported
Q010	Data and time of an item manually deferred in a queue

Fonts

F001	Font created
F002	Font deleted
F003	Font updated
F004	Font updated and renamed

Key store

K001	Encryption scheme created
K002	Encryption scheme deleted
K003	Encryption scheme updated
K004	Encryption scheme updated and renamed

Credentials

A001	Credential created
A002	Credential deleted
A003	Credential updated
A004	Credential updated and renamed

Dashboards and tiles

D001	Dashboard created
D002	Dashboard updated
D003	Dashboard deleted
D004	Tile create
D005	Tile updated
D006	Tile deleted
D007	Dashboard set as home page

Groups

G001	Group created
G002	Group renamed
G003	Group deleted
G004	Group moved
G005	Group copied

Environment locks

H001	Environment lock unlocked
------	---------------------------

Environment variables

EV01	Environment variable created
EV02	Environment variable deleted
EV03	Environment variable modified

Skills

SK01	Skill enabled setting updated
------	-------------------------------

Session logs

AR01	Session log archived
AR02	Session log deleted
AR03	Session log restored

Data Gateways

DP01	Data Gateways configuration created
DP02	Data Gateways configuration updated
DP03	Data Gateways settings updated
DP04	Send interval of published dashboard updated
DP05	Data Gateways output configuration created
DP06	Data Gateways output configuration updated
DP07	Data Gateways output configuration deleted

Work queue analysis

WQ01	Work queue snapshot configuration created
WQ02	Work queue snapshot configuration updated
WQ03	Work queue snapshot configuration deleted
